

Professional summary:

Senior Full Stack Engineer with 10+ years of experience building scalable, high-performance web applications using React, Angular, Vue, TypeScript, and Node.js across enterprise teams. Experienced in micro-frontend architecture, cloud deployment with AWS and Kubernetes, and delivering reliable, user-focused solutions. Strong track record of improving performance, developer efficiency, and application quality.

Core Competencies:

• Full Stack Development • Micro-Frontends • UI Architecture • API Design • Web Performance • Cloud Deployment (AWS, Kubernetes) • Observability • REST & GraphQL APIs • Design Systems • Accessibility

Technical Skills:

Front-End Development:	React.js, Redux, TypeScript, Next.js, Vue.js, Angular, HTML5, CSS3, SASS/LESS, Material UI, Ant Design, D3.js, Ag-Grid, Bootstrap, Tailwind
Back-End Development:	Node.js, Fastify.js, Express.js, GraphQL, REST API, Java, WebSocket, Kafka
Cloud & Infrastructure:	AWS (S3, Lambda, CloudFront, EC2), Kubernetes (pod management, logs), Vault, Docker
Databases:	MongoDB, PostgreSQL, Cassandra, Elasticsearch, Redis
Monitoring & Observability:	Datadog, Splunk, New Relic, Lighthouse
Testing & Automation:	Cypress, Playwright, Jest, React Testing Library
Other Tools:	GitHub, GitLab, Bitbucket, RTC, Power BI, Webpack, Vite, Nx Console, Module Federation
Methodologies:	Agile, Microservices Architecture, CI/CD (Jenkins, GitHub Actions), SSR, SEO Optimization

Employment history:

Fidelity, Westlake, Tx	Feb 2025 – Present
Full Stack Software Engineer	
- Develop reusable UI components using Angular, Vue.js, TypeScript, Java, and GraphQL within a Micro-Frontend (MFE) architecture, reducing duplicated UI work across teams by 25%. - Partner with UX and design teams to deliver accessible, responsive interfaces aligned with Figma specifications. - Build unit and Playwright E2E tests to improve application reliability. - Monitor production systems and debug issues using Splunk and Datadog to maintain application stability. - Support on-call incident management, resolving production issues and contributing to root cause analysis. - Contribute to a React tooling initiative to standardize reusable component patterns for cross-team UI development. - Leverage GitHub Copilot for routine implementation and code navigation where it improves speed without reducing review quality.	
Bank Of America, Plano, Tx	Aug 2024 – Feb 2025
Senior Front-End Engineer	
- Built responsive user interfaces using React 18, Next.js, Redux Toolkit, and Vite, reducing build times by 20%. - Led development of scalable UI features for high-traffic internal applications using custom Hooks, SCSS, and Webpack, improving maintainability and code reuse. - Created reusable React components using React Hooks, Kendo UI, and custom CKEditor integrations. - Partnered with design and product teams to translate Figma prototypes into accessible, production-ready interfaces.	

- Conducted **code reviews** and shared frontend best practices to improve code quality and maintainability.

Walmart, Dallas, TX

Jan 2022 – Aug 2024

Software Engineer III

- Led frontend development using **React**, **Redux**, **custom Hooks**, **HTML**, **SCSS**, and **Webpack**.
- Developed and maintained a Node.js Backend-for-Frontend (**BFF**) layer that consolidated upstream services into a simpler API surface for the UI.
- Managed **Kubernetes pods**, **deployments**, and **logs** to support reliable application operations.
- Implemented secure secrets using **Vault** and **Akeyless**.
- Built **Kafka** and **WebSocket** integrations to support real-time IoT data streaming and live status updates.
- Expanded automated test coverage using **Cypress** and **Jest**, reducing regression issues by 40%.
- Developed **Power BI** and **Big Query** dashboards to improve data visibility and analytics reporting.
- Improved page load performance and Core Web Vitals through Lighthouse-driven optimization, bundle tuning, and responsive layout work.

7-Eleven, Irving, TX

Mar 2020 - Jan 2022

Software Engineer II

- Developed scalable web applications using **React**, **Next.js**, **Redux**, **TypeScript**, and **SCSS**.
- Led initiatives to improve UI architecture and component reuse across teams, leveraging **Storybook**.
- Built **REST** and **GraphQL** APIs using Node.js, Express, and AWS Lambda in a microservices environment; strengthened JWT-based access controls.
- Improved database performance by implementing **MongoDB** optimizations and **Redis** caching, reducing data retrieval time by 20%.
- Monitored application performance using **New Relic** to identify and resolve system bottlenecks.
- Developed a reusable server-side rendering framework to standardize architecture across projects and improve team delivery speed.
- Improved frontend performance using **Webpack** optimizations and lazy loading.
- Integrated AWS services including **S3**, **Lambda**, and CloudFront for application hosting and deployment.

HPE Aruba, Santa Clara, CA

Feb 2018 - Feb 2020

UI Engineer

- Built responsive and reusable **React components** to maintain UI consistency across applications.
- Developed data visualization dashboards using **D3.js**.
- Created APIs using **Fastify** and **Express** with **PostgreSQL**, **Elasticsearch**, and **Cassandra**.
- Implemented **Jest** and React Testing Library tests, achieving 80% code coverage.
- Participated in design and code reviews to improve overall code quality and reduce defects.

State Street Bank and Trust, Quincy, MA

Nov 2015 - Feb 2018

UI Engineer

- Participated in full lifecycle development of web applications using **React**, **Redux**, and **SQL**.
- Implemented client-side routing to improve application navigation and user experience.
- Used libraries such as **Lodash**, **Axios**, **Moment.js**, and **Numeral.js** for data processing and formatting.
- Integrated REST APIs with Redux state management to support reliable data flows.
- Supported Agile sprint planning and delivery using Rational Team Concert.

Education:

Master of Science in Applied Computer Science— *Northwest Missouri State University*, Maryville, MO
