

Professional summary:

Senior Front-End & Full Stack Engineer with 10+ years of experience building scalable enterprise web applications and internal portals. Strong expertise in **React, Next.js, Vue.js, Node.js, TypeScript, JavaScript, and jQuery**, with experience in micro-frontends, CMS-driven applications using **SDL Tridion and Sitecore**, REST/GraphQL integrations, WCAG accessibility, and GCP/AWS cloud environments.

Core Competencies:

- Front-End Architecture • Full-Stack Development • Micro-Frontends • Enterprise Portals/Intranets • Accessibility/WCAG
- API & Enterprise Integrations • BFF/Middleware • CMS Platforms • Cloud (GCP/AWS) • CI/CD & Observability

Technical Skills:

Front-End Development:	React.js (18+), Redux, TypeScript, JavaScript, jQuery, Next.js, Angular, Vue.js (3+), HTML5, CSS3, SASS/LESS, Material UI, Ant Design, D3.js, Ag-Grid, Bootstrap, Tailwind
Back-End Development:	Node.js, Fastify.js, Express.js, GraphQL, Java, OpenAPI, REST APIs, BFF/Middleware
Cloud & Infrastructure:	GCP (GKE, Logging/Monitoring, Cloud Build, Secret Manager, BigQuery), AWS (S3, Lambda, CloudFront), Docker
Databases:	MongoDB, PostgreSQL, Cassandra, Elasticsearch, Redis
Enterprise & Monitoring:	ServiceNow, Oracle, UKG, SDL, Sitecore CMS, Datadog, Splunk, New Relic, Omnibug
Testing & Automation:	Cypress, Playwright, Jest, React Testing Library
Other Tools:	GitHub, GitLab, Power BI, CKEditor, Figma, Storybook, Webpack, Vite, Nx
Methodologies:	Agile, Microservices, CI/CD, SSR, SEO compliance, WCAG

Employment history:

- | | |
|--|----------------------------|
| Fidelity, Westlake, Tx | Feb 2025 – Present |
| Full Stack Software Engineer | |
| <ul style="list-style-type: none">• Worked across multiple healthcare HSA applications using React.js, Angular, Vue.js, jQuery, TypeScript, Node.js, Java, and GraphQL within an MFE architecture, reducing development effort by 25%.• Supported production incidents using ServiceNow, Splunk, Datadog, and Omnibug for triage, log analysis, troubleshooting, and root-cause analysis.• Used internal OpenAPI code generators for Java API clients and Nx to manage the monorepo and shared libraries.• Enhanced legacy enterprise UI workflows using jQuery for event handling, DOM updates, and AJAX integrations.• Supported CMS-driven enterprise pages using SDL Tridion and Sitecore, integrating managed content with React/Vue components and application workflows.• Collaborated with UX and Accessibility teams using Figma, CAT tools, and WCAG reviews to deliver accessible UIs. | |
| Bank Of America, Plano, Tx | Aug 2024 – Feb 2025 |
| Senior Front-End Engineer | |
| <ul style="list-style-type: none">• Developed responsive enterprise UI using React 18, Next.js, Redux Toolkit, and Vite, cutting build times by 20%.• Integrated React Hooks, Kendo UI, and CKEditor to build reusable content-authoring components for enterprise pages.• Connected Next.js pages to Oracle-backed REST APIs and translated Figma designs into WCAG-aligned UIs. | |

- Implemented **Next.js routing, middleware, and server-side rendering (SSR)** to support secure, scalable enterprise workflows and API integrations.
- Conducted code reviews focused on **scalability, maintainability, accessibility, and cross-browser compatibility**.

Walmart, Dallas, TX

Jan 2022 – Aug 2024

Software Engineer III

- Led UI development for an **internal employee portal/intranet** using **React.js, Redux, JavaScript**, and Webpack.
- Built a **Node.js BFF on GCP** integrating React workflows with UKG and other enterprise APIs.
- Managed **GKE pods, deployments, rollouts, and logs** for production releases and availability.
- Used **GCP Secret Manager** for application configuration and environment secrets.
- Built real-time integrations using **GCP Pub/Sub and WebSocket** for live operational updates.
- Integrated **Cypress, Playwright and Jest with GCP Cloud Build CI/CD**, reducing regression issues by 40%.
- Used **GCP BigQuery and Power BI** for operational reporting, improving data visibility by **75%**.
- Used **GCP Cloud Logging/Monitoring and Lighthouse** for production troubleshooting and performance tuning.

7-Eleven, Irving, TX

Mar 2020 - Jan 2022

Software Engineer II

- Built reusable UI components using **React.js, Next.js, Redux, TypeScript, SCSS, and Storybook** for consistent cross-device experiences.
- Built **REST/GraphQL APIs with Node.js, Express.js, and AWS Lambda** in a microservices architecture.
- Implemented **JWT-based authentication and authorization** for secure application and API access.
- Improved data retrieval by 20% using **MongoDB and Redis cache**.
- Used **New Relic** to identify and resolve application performance bottlenecks.
- Built reusable **Next.js SSR and middleware** boilerplate to standardize application architecture.
- Optimized UI performance using **Webpack, code splitting, and lazy loading**.
- Integrated **AWS S3, Lambda, and CloudFront** for hosting, APIs, and deployment pipelines.

HPE Aruba, Santa Clara, CA

Feb 2018 - Feb 2020

UI Engineer

- Maintained enterprise UI using **React.js, JavaScript, jQuery, AJAX, HTML5, and CSS**.
- Built reusable React components and charts using **D3.js**.
- Engineered APIs using **Fastify.js** and **Express.js** with **PostgreSQL, Cassandra, and Elasticsearch**.
- Implemented **Jest and React Testing Library** tests, achieving 80% code coverage.
- Provided design and code review feedback on **GitLab**, reducing defects by 15%.

State Street Bank and Trust, Quincy, MA

Nov 2015 - Feb 2018

UI Engineer

- Managed full SDLC of a large-scale **enterprise intranet portal** using React.js, Redux, JavaScript, jQuery, and SQL.
- Applied **React Routing** across enterprise workflows to improve navigation.
- Used **Numeral.js, Moment.js, Lodash, and Axios** for formatting, APIs, and data transformation.
- Integrated **REST endpoints and Oracle-backed data** with React/Redux flows.
- Streamlined sprint delivery using **Rational Team Concert** for task tracking and coordination.

Education:

Master of Science in Applied Computer Science– *Northwest Missouri State University, Maryville, MO*

Bachelor of Technology in Information Technology – *Jawaharlal Nehru Technological University, India*
